## PRE-REQUISITES

A first aid certificate is required for this course. Mines Rescue also encourages participants to gain knowledge and experience of the policies and procedures of their workplace before starting the course.

## LEARNING PATHWAY

Mines Rescue offers this training which can be utilised to work towards gaining, RII30709 Certificate III in Mine Emergency Response & Rescue.

Road Accident Rescue covers the competency required to gain access to and extricate entrapped casualty/s from vehicles travelling on the road such as cars, motorcycles, buses, heavy vehicles while minimising the potential for further injury and preserving the integrity of evidence.

This unit prepares the participant to set up and control an incident scene to access entrapped casualty/s using a range of techniques and to operate specialist equipment to undertake the rescue it also trains specialist skills to allow smooth transition with other emergency services.

The Skills DMC website (<http://www.skillsdmc.com>) is a helpful website to refer to for further information about formal learning pathways related to the RII training package.

## RECOGNITION OF PRIOR LEARNING / RECOGNITION OF CURRENT COMPETENCY

Recognition of Prior Learning (RPL) and Recognition of Current Competency (RCC) enable a participant to receive recognition for their current skills, knowledge and/or experience they possess regardless of where that learning was obtained. Such knowledge and skills may be gained from:

- Previous study and prior qualifications
- Work experience
- General life experience

RPL/RCC ensures the knowledge and skills previously gained are applied to the qualification criteria. RPL/RCC can assist in identifying what training may be required to ensure the participant does meet all of the performance criteria under each of the appropriate units of competency. The aim is to avoid any unnecessary training. Participants are encouraged to discuss possible RPL/RCC application with Mines Rescue prior to commencing the training courses.

## COURSE FEES

The fees for our course with training completed on our sites are \$2185 per person.

Off site training costs are available upon request.
